Product Details

Many qualities in one-this is how the SLV UNIVERSAL DOWNLIGHT is designed. The colour temperature can be quickly adjusted in four stages via CCT switch. The choice of 5 W or 7 W output is just as simple. And thanks to the lockable springs and Quick Connector Box, the downlight is quick and easy to install. In addition, the separately available covers in round or square and various colours allow the UNIVERSAL DOWNLIGHT to be used as a fixed downlight with IP65 or as a swivelling downlight with IP20.
